Covid changes:

Your Church Council has again had to respond to new COVID SAFE rules and is doing what it can to alleviate any anxiety and to minimise non-essential contact associated with our core business. *For this reason, some activities have been postponed and others cancelled.* When outside groups use our premises, we are insisting that they meet our requirements of double vaccination as a minimum for entry. Facemasks are to be worn at all times and sanitising must be in place. The building is to be disinfected with Glen 20 after each occasion.

If you wish to attend and share in worship and chat afterwards - but don't wish to enter the church - it is always an option to watch the TV in the comfort of the foyer.

Cast all your anxiety on him, because he cares for you. **1Pe 5:7**

WORSHIP AT ADARE:

South Australia received two Christmas gifts it doesn't want – COVID Delta and COVID Omicron. The latter strain is particularly virulent and is moving rapidly through our communities. Health authorities have asked that we be particularly vigilant with due attention to hygiene, cleanliness, social distancing and the wearing of masks. This would include both within our church, vestry, hall, office and undercover areas. Please follow COVID Marshal instructions to protect all.

The most recent Health guidelines will allow our Adare members to worship in the same format as in recent months as long as we maintain all COVID requirements. We do have to protect each other, and **if you are NOT double vaccinated, or are compromised because of a major health condition, Church Council would recommend that you NOT attend church at this time.** You can view our service each week on the website from Monday evening:

(<https://adarechurch.org.au/my-church/videos-of-recent-church-services>), or on a DVD (see Ken Pratt or Jim Miles).

PEOPLE:

Milton Hender turns 90 on the 13th January – another milestone reached.

John and Margaret Mathieson are shifting on the 13th January to their new accommodation in Marion. We will miss their friendship and many skills and wish them well in their new environment.

Athalie Ford has broken her arm, and Ross is also unwell. I also hear that their son Alan has broken his arm! Pray for their rapid healing.

We continue to have a long list of people that need our care and our prayers. Not all are travelling well and we sincerely pray that the medical teams can intervene in a way that improves the health of our people. Here are **a few names of people you may wish to pray for:**

Jill Magor, Leslie Barnes, Milton Hender, Rene Dixon, Beth Baker, Ann Richardson, Pat Keep, Fay Anderson, Ruth and John Keith, Margaret and John Mathieson, Max Vincent, Leon Parsons and the members of your care group.

ANY TAKERS?

RELIEF WORKSHOP SUPERVISOR:

Encounter Centre is in need of a Relief Workshop Supervisor. Adare has been involved in Encounter ever since it started. It could be that we have someone at Adare with Carpentry skills who would be happy to fill this temporary position.

The workshop is important because it provides a satisfying activity for volunteers plus it is a substantial source of income that supports the handicapped within our city.

For more information contact Jim Miles or Encounter's manager 85522995

Where there's a will there's a way

Victor Harbor Community Wills Day

Wednesday 23rd February

Most of us don't think about it very often, but having a good will is the simplest way to make sure the people who matter to us are taken care of when we're gone. And it doesn't have to be difficult or costly.

The Salvos offer a community Service in which generous and independent local solicitors prepare simple Wills in exchange for a \$70 (\$120 per couple) contribution to our work. It's a great way to ensure you have a Will that reflects your wishes, while also supporting Australians in need.

(Thanks, Jenny Fletcher, for these)

CHURCH ROSTERS AND COVID:

Adare people who are on the worship or church rosters but have concerns about COVID should advise the person creating that roster so that changes can be made. We do not wish to build anxiety levels or place [people at personal risk.

On the other hand, it is still your personal choice whether or not you continue on any roster.
