Cranwell	Peter & Rae	05/02/1966

OUR PEOPLE:

Unfortunately, our long list of people with significant illnesses remain largely unchanged.

We need to continue to support them with our thoughts, prayers, phone contacts, and perhaps with flowers or chocolates?? We need to pray for those who care for them and for the medical and support services who can relieve pain and suffering and assist any return to good health. In all of this may they feel God's presence and stay strong in their faith, and rejoice in their relationship with loving friends and a loving God.

GROW | 
mental wellbeing programs

ARE YOU,
A FAMILY MEMBER
OR A FRIEND
LOOKING FOR

mental health
support

GROW is a community-based national organisation that has 65 years experience in developing a unique program for improving and maintaining mental health.

GROW's programs are based on lived experience meaning GROW groups are a meeting of peers, made up of people who are striving to develop and maintain good mental health.

The GROW Program is a 12-step program of personal growth, mutual help and support. It is all-inclusive and draws on many principles for mental, social and spiritual health.

Grow group meetings are weekly and go for about two hours. The groups vary in size from 3-10 members and newer members are supported by experienced members who have worked through the GROW Program.

Joining a GROW Group is free - you don't need to have a referral or a doctor's diagnosis and groups are confidential. You can even choose to remain anonymous.
